SUMMARY

Creative and results-driven Web Developer with hands-on experience in building responsive, user-friendly web applications using HTML, CSS, JavaScript, React, and Java Full Stack technologies. Strong foundation in component-based development, and RESTful API integration. Passionate about writing clean, reusable code and delivering optimized solutions. Quick learner with strong problem-solving and collaboration skills.

PROJECTS

CSS Animation (Glassmorphism Login + Balloon Floating)

- Built a visually appealing glassmorphic login interface with smooth floating balloon animations using CSS keyframes.
- Demonstrated strong grasp of UI effects, layering, and animation timing to deliver a modern, professional aesthetic.

Magazine Layout

- Designed a responsive magazine-style layout using CSS Grid and Flexbox.
- Showcased expertise in grid-based layout design and front-end responsiveness across devices.

Blog Post Card

- Created a realistic blog post card component, highlighting component reusability and clean design principles.

Toy-Tee-World (Mini Brand Concept)

- Developed a creative mini e-commerce brand concept, emphasizing branding, color psychology, and engaging product presentation.
-
